

RoHS Compliant

Spring loaded retracting mechanism

Steel, zinc plated

Crank handle and body

Matte black, glass filled nylon plastic with zinc plated steel molded-in hub

Revolving handle

Black phenolic plastic with zinc plated steel spindle

J.W. Winco's retracting hand crank is just one of many specials that have become a standard product.

Can be used in any application requiring the complete crank handle to be folded out of the way.

Please call us with your application requirements.

Maximum heat resistance of nylon plastic crank body: 110°C (230°F).

For certain minimum quantities, inch bore sizes from .250" – .506" and metric bore sizes from 6mm – 12mm are available upon request. Round mechanism is standard.

For certain minimum quantities, square mechanisms can also be manufactured.

Inch Table
