## Tube

28 mm diameter x 2 mm wall thickness,  
Stainless steel, European standard 1.4301  
(American Standard 304), dia. 28 mm, polished  
matte finish

## Handle legs

Precision-cast stainless steel, European  
standard 1.4308, sand-blasted matte finish

GN 333.5 tubular handles are a low-cost option  
for applications requiring stainless steel.

Handle legs are highly stable in relation to their  
small dimensions. Tube and legs are secured  
together with self-tapping screws.

O-rings at the joining of the tube and legs  
prevent water from entering the tube.

Typical use is on double winged swinging doors  
and sliding doors on machines.

Handles in special lengths available upon  
request.
